Firewall & Router Review Policy

Purpose
Dakota State University (DSU) has established a formal policy regarding the review of firewalls and routers. The purpose is to protect the networks, devices, and information at the university as well as to be in compliance with the Payment Card Industry Data Security Standards (PCI-DSS).

Audience
This policy applies to all firewalls and routers in the DSU network.

Policy
- DSU will review rule sets on all firewall and router appliances, whether physical or virtual, no less than every six (6) months in accordance to the Firewall and Router Review Procedure document.
- Servers within the DSU network will have host based firewalls enabled and configured to allow requisite services only.
- Users will not disable the host based firewall on their systems unless advised to do so by ITS.

Enforcement
Devices found in violation of this policy may be denied access to the DSU network.
