Security Audit Policy

Purpose
Dakota State University (DSU) has established a formal policy regarding security audits of information technology resources. The purpose is to protect the networks, devices, and information at the university as well as to be in compliance with the Payment Card Industry Data Security Standards (PCI-DSS).

Audience
This policy applies to all University employees, contractors, and any other users who may conduct and/or participate with information technology audits in any capacity.

Policy
DSU ITS in concert with the BOR Regents Information Systems and security-related consultants will conduct security audit and/or security reviews of identified University systems and resources at least on a yearly basis as required by compliance regulations (i.e. PCI-DSS), and in support of assessing the security posture of the organization’s critical academic and business systems.

Assessments must include quarterly vulnerability scans and annual penetration tests on all equipment as required by the PCI-DSS.

Revision History
This policy will be evaluated on an annual basis for ensuring its adequacy and relevancy regarding DSU’s needs and goals.
