How to Pay

Meal Plan

A meal plan is a pre-paid account for your on-campus meals. At the start of the term, you pay for all the meals you will eat in the dining hall. You'll then swipe your student ID card every time you enter a dining area, and the value of your meal will be deducted from your account.

Meal Plan Flex Dollars

Flex is a pre-paid debit card plan that is designed to eliminate the need to carry cash with you all the time. This is the perfect plan if you live in the halls and want to supplement your meal plans, or, if you commute but want to enjoy a convenient meal or snack before class. Your student ID card is encoded with the appropriate account information, which makes it easy to purchase any item from food services at any DSU dining location. Your Flex account balance is automatically reduced as purchases are made.

Trojan Gold

Trojan Gold is a prepaid, stored-value debit program. The money loaded onto your University Card is the funds you actually spend; there are no hidden fees or costs. Your balance will carry over from semester to semester and year to year. Trojan Gold is accepted at the following locations:

On Campus:

- Bits N' Bytes Convenience Store

Resident Life

The department of residence life respects the well-being and individuality of each student by providing a safe community that enhances social, educational, and leadership opportunities.

We fulfill this mission statement by:

- Providing renovated facilities in all residence halls that enhance the living and learning environment
- Establishing student run hall councils designed to develop leaders in a dynamic and interactive community
- Hiring professional live-in staff and student staff members with exceptional knowledge and training, who are committed to assisting students in developing life skills that compliment academic success
- Working cooperatively with support services designed to assist students in their ability to succeed

Development of Residents

Our goal is to help make the transition to our campus as seamless as possible, so that students don't feel overwhelmed or unprepared. Our First Year Residence Experience (FYRE) will help students transition into college life.

The Department of Residence Life engages students in out-of-class learning opportunities and partners with academic counterparts to influence their success within the classroom. We define the social, educational, and leadership objectives of our residents through the seven concepts of leading, engaged, respectful, prepared, independent, sensible, and well.

Encouraging a sense of community within the Residence Halls is important and helps establish a support system and place of belonging. Making students feel that they have a voice and a community is an essential part of our residence halls. Community can only be effectively established if there is respect for all parties involved. We define the social, educational, and leadership objectives of our residential community through five concepts: just, purposeful, governed, respectful, and celebrative.
